Dear Ms Logan,

Thank you for your fax message of 15 January.

As you know, Palpung Monastery was built by the Eighth Tai Situpa. Since then it has been the main seat of the successive incarnations and during this time has also been one of the most important seats of the Karma Kagyu Lineage. I have for some time now been making efforts to help the reconstruction and restoration of Palpung, although this has met with many difficulties.

I have met your President and other members of your organisation. This and having received your fax has made me aware of your interest in supporting the restoration of Palpung.

I sincerely request that you help Palpung in any way you can.

Yours in the holy Dharma,

The Twelfth Tai Situpa
